C. Project Description

1. a. Project Location (use maps and plans to identify the location of the area subject to this request):

484 Arcade Avenue	Seekonk
Street Address	City/Town
18	5
Assessors Map/Plat Number	Parcel/Lot Number

- b. Area Description (use additional paper, if necessary):

The western portion of the lot comprises BVW associated with the Runnins River (perennial river). The river angles northeast/southwest and is distanced 280-350 feet from the northern edge of the garage shown on the site plan, such that the riverfront area is located entirely within BVW at the subject lot. Please reference the site plan for the location of the field-delineated wetland edge and 100-foot buffer zone, the USGS locus map and site plan for the location of the Runnins River, and the delineation field data forms for BVW characteristics.

- c. Plan and/or Map Reference(s):

Site Plan for Proposed Inground Swimming Pool, Seekonk, Mass., for Anthony and Debra Guglielmo, dated April 13, 2000.

Locus Map; USGS East Providence, RI-MA Quadrangle, photorevised 1979.

BVW Delineation Field Data Forms, dated April 8, 2000.

2. a. Work Description (use additional paper and/or provide plan(s) of work, if necessary):

Proposed activities include the construction of an in-ground swimming pool and the installation of a 6-foot-high fence. The swimming pool will be distanced approximately 103 feet from the wetland edge. Concrete work, grading activities, silt-fence installation, and structural fence installation will occur within the 100-foot buffer zone. All proposed activities will occur within areas currently maintained as lawn. The silt fence will be installed prior to the commencement of earthwork and will remain in place until soils have stabilized to the satisfaction of the Commission.

- b. Identify provisions of the Wetlands Protection Act or regulations which may exempt the applicant from having to file a Notice of Intent for all or part of the described work (use additional paper, if necessary).

The applicant's agent believes that the project will not directly or indirectly alter an Area Subject to Protection under MGL c. 131, s. 40, as referenced under 310 CMR 10.02(2)(b) given the following: (1) the limited project scope; (2) the proposed siting of the pool proper outside of the 100-foot buffer zone; (3) the restriction of grading and fence installation within the buffer zone to maintained lawn; and (4) the avoidance of wetland-resource-area encroachments (and consequent compliance with all performance standards).
