

TOWN CLERK'S OFFICE  
SEEKONK, MASS.  
RECEIVED

Form 3

Nov 7  
Commonwealth  
of Massachusetts

DEQE File No.

(To be provided by DEQE)

City/Town SEEKONK

Applicant LEDGEMONT ASSOCIATES, INC.

**Notice of Intent  
Under the  
Massachusetts Wetlands Protection Act, G.L. c. 131, §40  
and  
Application for a Department of the Army Permit**

**Part I: General Information**

1. Location: Street Address 131 BROWN AVENUE  
 Lot Number PLAT 25 LOTS 81, 83 and 107  
LAND UNDERWATER
2. Project: Type BODY AND BANK Description CLEAN BOTTOM AND SIDES OF  
EXISTING POND. THE POND WAS DUG IN 1972. ABOUT 12" OF SILT HAS  
ACCUMULATED ON THE BOTTOM OF THE POND AND IS FOULING THE IRRIGATION  
PUMPS.
3. Registry: County BRISTOL Current Book 897 & Page 53  
 Certificate (If Registered Land) N/A
4. Applicant LEDGEMONT ASSOCIATES, INC. Tel. 761-6520  
 Address 131 BROWN AVENUE, SEEKONK, MA 02771
5. Property Owner SAME Tel. \_\_\_\_\_  
 Address SAME
6. Representative ANTHONY B. CARANCI, JR. SUPT. Tel. 761-6520  
 Address 131 BROWN AVENUE, SEEKONK, MA 02771
7. Have the Conservation Commission and the DEQE Regional Office each been sent, by certified mail or hand delivery, 2 copies of completed Notice of Intent, with supporting plans and documents?  
 Yes  No

379  
336

12. Is the wetland resource area to be altered by the proposed work located on the most recent Estimated Habitat Map (if any) of rare, "state-listed" vertebrate and invertebrate animal species occurrences provided to the conservation commission by the Natural Heritage and Endangered Species Program?

YES [ ]            NO [X]  
NO MAP AVAILABLE [ ]

Date printed on the Estimated Habitat Map issued  
(if any) OCTOBER, 1987

If yes, have you completed an Appendix A and a Notice of Intent and filed them, along with supporting documentation with the Natural Heritage and Endangered Species Program by certified mail or hand delivery, so that the Program shall have received Appendix A prior to the filing of this Notice of Intent?

YES [ ]            NO [ ]

**Part II: Site Description**

Indicate which of the following information has been provided (on a plan, in narrative description or calculations) to clearly, completely and accurately describe existing site conditions.

Identifying  
Number/Letter  
(of plan, narrative  
or calculations)

	<u>Natural Features:</u>
<u>N/A</u>	<u>Soils</u>
<u>WEEDS</u>	<u>Vegetation</u>
<u>N/A</u>	<u>Topography</u>
<u>EXHIBIT A</u>	<u>Open water bodies (including ponds and lakes)</u>
<u>EXHIBIT A</u>	<u>Flowing water bodies (including streams and rivers)</u>
<u>EXHIBIT A</u>	<u>Public and private surface water and ground water supplies on or within 100 feet of site</u>
<u>N/A</u>	<u>Maximum annual ground water elevations with dates and location of test</u>
<u>EXHIBIT A</u>	<u>Boundaries of resource areas checked under Part I, item 11 above</u>
<u>NONE</u>	<u>Other</u>
	<u>Man-made Features:</u>
<u>EXHIBIT A</u>	<u>Structures (such as buildings, piers, towers and headwalls)</u>
<u>EXHIBIT A</u>	<u>Drainage and flood control facilities at the site and immediately off the site, including culverts and open channels (with invert), dams and dikes</u>
<u>N/A</u>	<u>Subsurface sewage disposal systems</u>
<u>N/A</u>	<u>Underground utilities</u>
<u>N/A</u>	<u>Roadways and parking areas</u>
<u>N/A</u>	<u>Property boundaries, easements and rights-of-way</u>
<u>      </u>	<u>Other</u>

**Part III: Work Description**

Indicate which of the following information has been provided (on a plan, in narrative description or calculations) to clearly, completely and accurately describe work proposed within each of the resource areas checked in Part I, item 11 above.

Identifying  
Number/Letter  
(of plan, narrative  
or calculations)

	<u>Planview and Cross Section of:</u>
<u>N/A</u>	<u>Structures (such as buildings, piers, towers and headwalls)</u>
<u>N/A</u>	<u>Drainage and flood control facilities, including culverts and open channels (with invert), dams and dikes</u>
<u>N/A</u>	<u>Subsurface sewage disposal systems &amp; underground utilities</u>
<u>EXHIBIT A</u>	<u>Filling, dredging and excavating, indicating volume and composition of material</u>
<u>N/A</u>	<u>Compensatory storage areas, where required in accordance with Part III, Section 10:57 (4) of the regulations</u>
<u>N/A</u>	<u>Wildlife habitat restoration or replication areas</u>
<u>      </u>	<u>Other</u>
	<u>Point Source Discharge</u>
<u>N/A</u>	<u>Description of characteristics of discharge from point source (both closed and open channel), when point of discharge falls within resource area checked under Part I, item 11 above, as supported by standard engineering calculations, data and plans, including but not limited to the following:</u>

1. Delineation of the drainage area contributing to the point of discharge;
2. Pre- and post-development peak run-off from the drainage area, at the point of discharge, for at least the 10-year and 100-year frequency storm;
3. Pre- and post-development rate of infiltration contributing to the resource area checked under Part I, item 11 above;
4. Estimated water quality characteristics of pre- and post-development run-off at the point of discharge.

**Part IV: Mitigating Measures**

1. Clearly, completely and accurately describe, with reference to supporting plans and calculations where necessary:
  - (a) All measures and designs proposed to meet the performance standards set forth under each resource area specified in Part II or Part III of the regulations; or
  - (b) why the presumptions set forth under each resource area specified in Part II or Part III of the regulations do not apply.

<input type="checkbox"/> Coastal <input type="checkbox"/> Inland	<b>Resource Area Type:</b> BANK AND LAND UNDER WATER BODY	Identifying number or letter of support documents
<p>The existing pond receives water from one private well. The water is then pumped through the irrigation system to water the lawn. At the present time the pumps become clogged due to excessive silt and weeds. We propose to excavate about 12" of silt from the bottom of the pond and clean the banks of all weeds. Excavated material (about 800 c. y.) will be removed from the site by a professional excavator. The pond will be dewatered by pumping to a sump hole where siltation into Coles Brook can be controlled by hay bales and crushed stone. The existing banks will be loamed and seeded.</p>		

<input type="checkbox"/> Coastal <input type="checkbox"/> Inland	<b>Resource Area Type:</b>	Identifying number or letter of support documents

<input type="checkbox"/> Coastal    Resource Area Type: <input type="checkbox"/> Inland	Identifying number or letter of support documents

2. Clearly, completely and accurately describe, with reference to supporting plans and calculations where necessary:
- (a) all measures and designs to regulate work within the Buffer Zone so as to ensure that said work does not alter an area specified in Part I, Section 10.02(1) (a) of these regulations; or
  - (b) if work in the Buffer Zone will alter such an area, all measures and designs proposed to meet the performance standards established for the adjacent resource area specified in Part II or Part III of these regulations.

SEE SHEET 3-5	

**Part V: Additional Information for a Department of the Army Permit**

1. COE Application No. \_\_\_\_\_ 2. \_\_\_\_\_  
(to be provided by COE) (Name of waterway)

3. Names and addresses of property owners adjoining your property:

N/A

4. Document other project alternatives (i.e., other locations and/or construction methods, particularly those that would eliminate the discharge of dredged or fill material into waters or wetlands).

5. 8 1/2" x 11" drawings in planview and cross-section, showing the resource area and the proposed activity within the resource area. Drawings must be to scale and should be clear enough for photocopying.

Certification is required from the Division of Water Pollution Control before the Federal permit can be issued. Certification may be obtained by contacting the Division of Water Pollution Control, 1 Winter Street, Boston, Massachusetts 02108.

Where the activity will take place within the area under the Massachusetts approved Coastal Zone Management Program, the applicant certifies that his proposed activity complies with and will be conducted in a manner that is consistent with the approved program.

Information provided will be used in evaluating the application for a permit and is made a matter of public record through issuance of a public notice. Disclosure of this information is voluntary, however, if necessary information is not provided, the application cannot be processed nor can a permit be issued.

I hereby certify under the pains and penalties of perjury that the foregoing Notice of Intent and accompanying plans, documents and supporting data are true and complete, to the best of my knowledge.

**NED FORM 100 (TEST)**  
**1 MAY 82**

"Exception to ENG Form 4345 approved by HQUSACE, 6 May 1982".

"This document contains a joint Department of the Army and State of Massachusetts application for a permit to obtain permission to perform activities in United States waters. The Office of Management and Budget (OMB) has approved those questions required by the US Army Corps of Engineers. OMB Number 0702-0036 and expiration date of 30 September 1983 applies". This statement will be set in 6 point type.
